Summer Season Review Including Beach Patrol Operations, Cabanas, and Regulations

Fire Chief Dempsey and Assistant Fire Chief Childres informed the Council of the Beach Patrol operations during this 2nd season under their supervision structured as an educational and public safety based patrol. Childres advised that the call volume increased this year by approximately 25% with 26 major calls up from 16 major calls last year. Childres advised that the donation and use of two (2) jet skis this year made for quicker water rescues. Dempsey and Childres admitted that Beach Patrol staff spent a lot of time daily dealing with private cabana patrons explaining where they can be placed, how that must be secured and directing where to set up when their chosen spot was occupied. Dempsey suggested allowing another row of cabanas. Mayor Forester asked if the patrol staff were impeded from their safety duties due to dealing with the cabana patrons. Childres agreed that yes on some days the patrol staff were impeded from proactive safety patrols due to the time spent with cabana patrons. Childres advised that this mostly occurred on Sundays and Mondays when the new set of weekly renters arrive. Dempsey advised that the commercial cabana companies are working well together and obeying the rules, it's the private cabana patrons that present the most difficulty. Councilman Larkin, who volunteered for several patrol shifts, advised that Beach Patrol is a public relations job, believes that the beach rules and regulations need more clarification, that at times safety is compromised due to non-safety issues and that the Patrol staff need to be able to spend more time on safety measures. Councilman Larkin recommended placing a police officer on the beach to manage the cabanas, and provide public education and enforcement of the beach rules and regulations. Dempsey advised that yes, a police officer, especially on Sundays and Mondays, would be beneficial. The Council requested Staff to prepare a cost analysis of placing an officer on the strand and to add a cabana discussion to the November 15, 2016 agenda.
